

Advantec Computer LLC

Product Manager

Job Description

Title	Product Manager
Department(s)	Product Management
Reports to	Vice President, Product Management

Job summary

Product Manager is responsible for researching and establishing new products for the company to sell. Products will fall within a wide range of technologies, costs, and strategic importance, with particular emphasis on more complex, cutting-edge, higher profit-opportunity products, including those that help create higher value Proteon solutions. In this capacity the Product Manager will pursue products and technologies as directed by the VP, Product Management. Employees in this position are expected to possess extensive computer technology knowledge, as well as experience researching and selecting products in the PC industry, specifically for creation of PC, Server, and Notebook solutions. This role requires extensive use of a computer to track and execute daily activities. Employees in this capacity are expected to operate with a minimum amount of daily supervision, and are expected to be energetic, motivated, and seekers of personal success.

Summary of essential job functions

- Research new products and technologies
- Choose suppliers and products that increase Advantec sales and gross profit
- Provide product expertise to stakeholders, including Advantec employees, customers, and suppliers

Education/Experience Valued

BA/BS degree, 5 years experience in technical capacity in PC industry, 2 years experience in product research and selection
